DETAILED ACTION

Applicant's amendment and remarks received 08 May 2007 have been fully considered.

Claims 5-11 are therefore allowed with the additional limitations included.

Examiner's Statement Of Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest a clamping mechanism with a pushing member arranged in a configuration as presented in the independent claims where the pushing member functions to move the movable member into a switched and unswitched state in addition to the accompanying features of the independent claim and the intervening claims. Since the prior art does not teach the claimed arrangement, the prior art therefore also does not teach the functionality of the clamping mechanic driving circuit for driving the push member as claimed in the independent claims.

A close prior art of record is U.S. Patent 6,813,412 to Lin. Lin was relied upon in the rejection set forth in the previous Office action, mailed 05 December 2006, paper number 200611 and now withdrawn. As argued by Applicant in the "Remarks" section received 08 May 2007 and agreed upon by the Examiner, Lin fails to teach a clamping member with a pushing member arranged as claimed. Since Lin fails to teach the specific arrangement, the pushing member cannot function as claimed.

Another close prior art of record is U.S. Patent Application Publication 2002/0181069 to Brown et al. Brown et al teaches a moveable light-reflecting switching element including all of the claimed components, such as drive circuits, a clamp mechanism, a pushing member, clamping coils and magnets. However, similarly to the Lin reference above, Brown et al fails to

teach the specific claimed arrangement of the components and therefore does not teach the claimed functionality of each of the components in relation to another.

Therefore, claims 5-11 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
